

*Lechuza*®

Premium planters  
for attractive  
plantscaping

## LECHUZA® – the number one name in interior plantscaping

LECHUZA planters are the perfect solution for everyone who wants their plants to flourish and thrive.

### Dear Business Partners,

For a decade LECHUZA planters have inspired plantscapers and end consumers around the world with their elegant design, their practical features and the LECHUZA sub-irrigation system.

These three pillars help define the LECHUZA brand as a reliable partner that makes your daily life and work with plants as simple as possible.

We hope that our existing line of products and the attractive new planters presented on the following pages will continue to excite those who are already fans and win over new customers.

Sincerely,  
Your LECHUZA Team

### LECHUZA Planters

- are easy to transport
- are shatterproof
- are impact-resistant
- come in brilliant finishes in subtle colors that harmonize perfectly with any environment
- are available with the LECHUZA sub-irrigation system
- are manufactured in Germany under the highest production standards
- are 100% recyclable
- offer a comprehensive range of LECHUZA accessories that make working with plants easier

**DIAMANTE**

DIAMANTE's perfection is proof of our strength in design and plastic injection molding

DIAMANTE 40 – Pachira aquatica

LECHUZA DIAMANTE is available in white, black, anthracite and scarlet red high-gloss finishes.

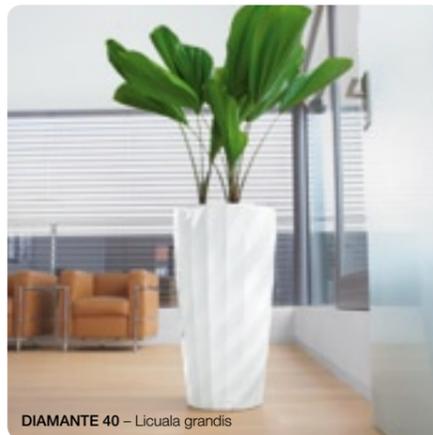

#### DIAMANTE plant liner

- Fits DIAMANTE and RONDO
- The color-coordinated frame handle slides into the planter after use

DIAMANTE 40 – Dracaena deremensis 'Lemon Lime'

DIAMANTE 40 – Licuala grandis

## Premium-class product innovation

DIAMANTE's multifaceted finish underscores the planter's characteristically refined appearance.

The unique surface structure of the planter features a high-gloss finish that, depending on the lighting, constantly reveals new facets to the observer.

- Ideally showcases captivating plantings
- Is suitable both as a stand-alone planter or as part of a stylish interior design when presented in a row of plantings.
- The interchangeable plant liner fits in both the DIAMANTE and new RONDO planter models.

DIAMANTE 40 – Musa

**RONDO**

Elegant column planter  
in CLASSICO design

RONDO 40 – Anthurium andrea

#### RONDO plant liner

- Fits RONDO and DIAMANTE
- The color-coordinated frame handle slides into the planter after use

RONDO 40 – Oncidium hybride

RONDO 40 – Ficus benjamina 'Exotica'

## The purist contours of the elegant column planters in CLASSICO design ...

... give plantscapers a wide variety of interior design options.

Superior planter design combines aesthetics with practical features. The new RONDO planter offers you a round column planter whose perfectly designed finish harmonizes with all of the members of the CLASSICO family and can conveniently showcase your plantscape in interior spaces that require a dense arrangement of plantings.

- Timeless, elegant design that matches the CLASSICO family of planters
- Tall column planter with high plant volume and stable construction
- The interchangeable plant liner features a color-coordinated frame handle and is available for use with RONDO and DIAMANTE.

RONDO 40 – Nephrolepis

RONDO 40 – Kalanchoe thyrsifolia

RONDO 40 – Sansevieria trifasciata 'Laurentii'

**DELTA**

Magnificent plant growth in  
award-winning planters

reddot design award  
best of the best 2008

LECHUZA DELTA received the  
"red dot award: best of the best 2008"  
for exceptional product design.

With its sculptural silhouette, DELTA sets stylish accents even in the most discerning environments.

DELTA 40 – Sansevieria 'Jiboa'

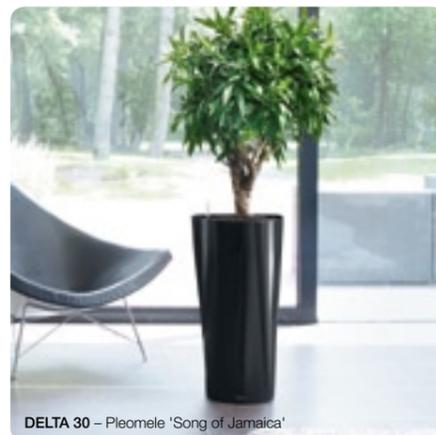

#### DELTA plant liner

- Patented plant liner
- The color-coordinated frame handle slides into the planter after use

DELTA 30 – Phalaenopsis hybride

DELTA 30 – Pleomele 'Song of Jamaica'

## Outstanding design

DELTA's organic design underlines the planter's elegance.

LECHUZA DELTA was the first planter to receive the coveted "best of the best" red dot design award from an international jury for its outstanding product design.

- LECHUZA DELTA unites technology and design: Hidden within the fluid, organic planter design, the LECHUZA sub-irrigation system in the practical plant liner provides reliable care for plants.
- Featuring a circular bottom combined with a triangular top – LECHUZA DELTA fascinates onlookers with a new design from every angle.

With its shimmering satin finish, DELTA's extravagant design sets standards in the premium segment.

DELTA 40 – Alocasia calidora

## To turn small objects into a big attraction ...

... you need intelligent solutions in every detail.

True connoisseurs only bring tasteful things to the table: DELTINI from the LECHUZA table planter collection is one of these.

- New planter style: circular bottom, square top
- The 18 cm (7 inch) high table planter harmonizes perfectly next to DELTA 20, which is the same height.
- The proven LECHUZA-PON plant substrate is already included in the All-in-One Set.

### DELTINI table planter

- Same height as the DELTA 20
- In an All-in-One Set complete with a plant liner, watering system and LECHUZA-PON

red dot design award  
winner 2009

DELTA 20 – Celosia venezuela 'Caracas'

## DELTA is not a question of standpoint ...

... but of taste.

The DELTA concept is as multifaceted as its use. The clear, flowing forms will inspire you to place the planters in the most unique locations – alone, in a row or as a pair. Playing with the variation possibilities is as exciting as it is simple.

- In the All-in-One Set incl. plant liner and watering system
- An indicator is also included which offers dependable information on the water level in the reservoir
- Available in all of the planter colors the range has to offer along with special colors made just for table planters: high-gloss aubergine and orange metallic

DELTA 20 – Sansevieria trifasciata 'Fernwood'

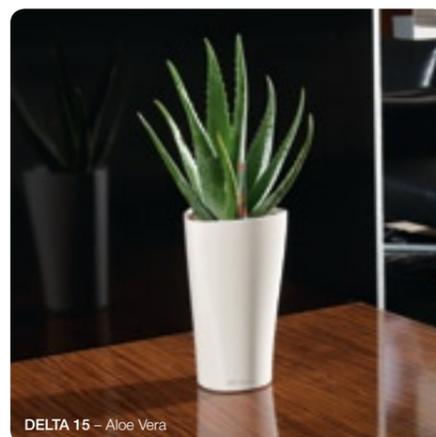

### DELTA table planter

- Plant liner with decorative border
- Incl. LECHUZA watering system

DELTA 15 – Vriesea

DELTA 15 – Aloe Vera

## CUBICO

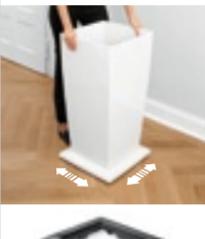

Only true masterpieces  
become classics

CUBICO 40 – Solanum jasminoides

**CUBICO  
plant liner**

- Sturdy carrying handles
- Easy transport even for high plantings

**CUBICO  
coaster**

- Mobile in every direction
- With four rollers

**MAXI-CUBI | MINI-CUBI – Phalaenopsis hybride****CUBICO 22 – Zantedeschia hybride**

## Convincingly understated

Tucked away inside the CUBICO planter, the LECHUZA sub-irrigation system dependably supplies your plants with water, just as nature intended.

CUBICO was the first column-shaped planter from LECHUZA – and today it still represents a modern, decorative style of interior plantscaping.

- Column planter with high plant volume
- Incl. robust plant liner with up to four recessed carrying handles
- The perfect complement for tables and counter tops and the ideal gift: MINI & MAXI-CUBI in the All-in-One Set

CUBICO never draws attention away from the arrangement; instead, it returns plants to their rightful place – the center of attention.

CUBICO 50 – Dracaena marginata

CUBICO 40 – Buxus sempervirens

CUBICO 50 – Chamaerops humilis

## CARARO

Magnificent plant growth  
across the board

CARARO – Nerium oleander

**CARARO:**  
Mobile thanks to hidden rollers

CARARO already comes with a sub-irrigation set and two sturdy rollers that make it easy to move.

CARARO – Calathea rufibarba

CARARO – Ophiopogon

## Dividing a room is not an art. Bringing life to one is.

CARARO elegantly divides even large spaces into green oases.

Wider is better: CARARO from LECHUZA combines the classic trough form with LECHUZA's characteristic elegance. The form and function of the planter will let you redefine the geometry of spaces.

- 75 centimeter (30 inch) wide trough-shaped planter featuring the elegant LECHUZA design
- The decorative enclosing frame offers additional stability
- Mobile thanks to hidden rollers
- Incl. overflow function for use outdoors

Spring cleaning – no problem.  
Thanks to its invisible rollers,  
CARARO is easy to move from  
one spot to another.

CARARO – Phalaenopsis hybride

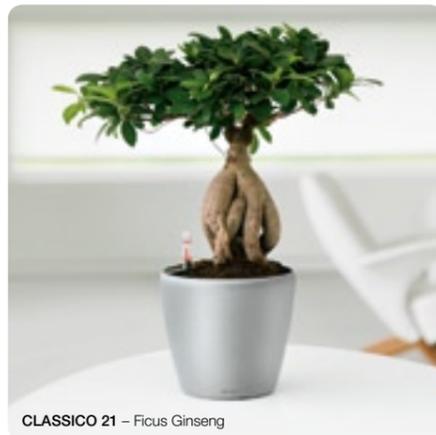

**CLASSICO**

Character is timeless

CLASSICO 50 – Ficus fibrosa

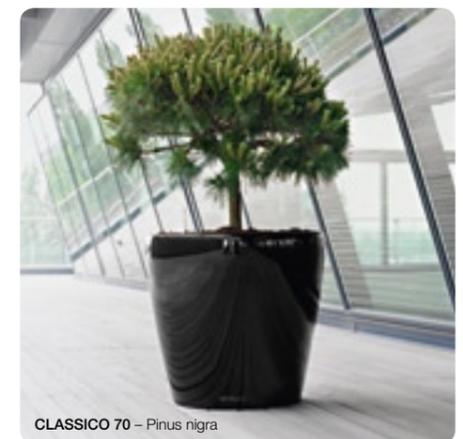

## Delivers much more than an ordinary flowerpot

CLASSICO embodies a classic design while offering convincing value in its details.

CLASSICO and its cone shape stand for a particular type of simple elegance that stylishly establishes itself in any room concept.

- CLASSICO offers seven planter sizes and six colors, making it a versatile design element in both large and small spaces
- A sturdy coaster is available as an accessory for all planters starting from size 43
- CLASSICO's water reservoir holds up to 26 liters (7 US.liq.gal) and effortlessly supplies your plants with the water and nutrients they need for many days without the need for additional watering

**QUADRO**

Timeless cosmopolitan

QUADRO 35 – Kalanchoe beharensis

**QUADRO coaster**

The LECHUZA coaster makes QUADRO 43 and 50 mobile – without being seen.

**QUADRO 43 – Ficus benjamina 'Exotica'**

QUADRO 28 – Lilium hybride

## Sophisticated design with high plant volume

LECHUZA QUADRO stylishly showcases any plants, whether small or large.

Creates oases of comfort – without any distractions. QUADRO's balanced design has a natural calming effect as it captivates.

- QUADRO features a high plant volume in every planter size
- The appealing design also offers higher and larger plantings the room they need to grow. The sub-irrigation system hidden inside the planter ensures a well-balanced water supply to the roots.
- QUADRO 43 and 50 are mobile both indoors and out, thanks to the optional coaster.

Would you have discovered it?  
The LECHUZA coaster disappears effortlessly under potted planters and is not outwardly visible.

QUADRO 43 – Chrysalidocarpus lutescens

## What makes planters from LECHUZA different? Everything.

LECHUZA planters are not just aesthetic. They are also beautiful on the inside.

### The sub-irrigation ensures superb plant growth

LECHUZA turns plant care into child's play: Simply fill the water reservoir integrated in the bottom of the planter once. Then let LECHUZA tend to the plants for up to 12 weeks\*, without the need for further watering.

### No waterlogging - even outdoors

The original LECHUZA sub-irrigation system is suitable both for plants with high water needs as well as for those that require significantly less water, such as succulents (cacti, yucca, etc.). Thanks to an overflow function integrated in the bottom of the planter, LECHUZA provides potted plants with the perfect amount of water – even when used outdoors. When the drain plug is removed, excess rainwater runs off, preventing plants from becoming waterlogged.

### Clever accessories

Interchangeable plant liners, recessed frame handles, coasters that virtually disappear under the planters, ... As an expert and plant lover, LECHUZA planters make your daily life and work with plants as simple as possible. Always innovative, we create new solutions in detail and find pleasure in making your work with plants in LECHUZA even easier.

### Absolute quality "Made in Germany"

LECHUZA planters are manufactured and finished at the German production site in Diethenhofen, Franconia, under the highest production standards.

### The original LECHUZA sub-irrigation system:

- LECHUZA's original sub-irrigation system turns plant care into child's play.
- Never overwater again
- Up to 12 weeks without further watering

- 1 Water level indicator**  
Ensures complete watering control
- 2 Water supply shaft**  
Makes adding water and liquid fertilizer easy
- 3 LECHUZA-PON as a separating layer**  
Perfectly controls the water supply to the plants
- 4 Separator**  
Forms the water reservoir in the bottom of the planter
- 5 Drain plug**  
Is removed to allow excess rainwater to drain when used outdoors. The water reservoir continues to provide your plants with water.

### LECHUZA-PON plant substrate

LECHUZA-PON is a structurally stable plant substrate that has optimum properties for plants and is the perfect alternative in places where organic soil cannot be used. LECHUZA-PON as a plant substrate: Used in combination with the LECHUZA sub-irrigation set, your plants benefit twofold.

Composition: zeolites, pumice, lava and depot fertilizer

\* depending on planter size, plant and location

CUBICO – Buxus

## Design with light

Chic outdoor lighting is becoming ever more popular.

State-of-the-art technology and the clever LECHUZA plant liner concept open up a world of new possibilities for incorporating light into your outdoor plantscape.

We have developed an LED set that allows you to retrofit planters in this series with lighting elements.

What's more, an edition of CUBICOs will also be available with integrated LEDs in an All-in-One Set. LECHUZA – the most beautiful planter design for your plants: by day or night.

CUBICO – Howea forsteriana

CUBICO is available with LED lighting in the All-in-One Set, which also features a plant liner and sub-irrigation system.
